REMARKS

In the Preliminary Amendment filed on October 27, 2005, Applicants cancelled Claims 1-61 and entered New Claims 62-109. Presently, Claims 62-109 are pending in the application. A list of the pending claims is provided herein.

After initial examination of Claims 62-109, the Examiner has required Applicants to elect a single species for the purpose of examination with the understanding that upon a finding that the elected species is allowable consideration of the patentability of the generic claim will be entertained. The Examiner has also asked that the Applicants identify the claims that read-on the elected species.

Applicants hereby elect for prosecution on the merits claims directed to the species identified by the Examiner as alpha hydroxyglycinamide having the structure of Formula C, without traverse, and Claims 62, 63, 65 -94 read-on the elected species. Applicants request that Examiner begin prosecution on the merits and that upon a finding that the elected species is allowable that the Examiner will consider the patentability of the generic claim and the species identified as an alpha hydroxyglycinamide having the structure of Formula D.
